

Sand and Water Shell – “BEACH BEE”

Playing outside is fun.

This perfect combination of playing in the sand and splashing around in the water will excite large and small alike.

The two part shells without corners or edges are shaped as a bee and are provided with ergonomically formed seat shapes in the internal and external shells as well as a safety air hole.

Folded together these elements form a fun garden shape and at the same time provide shelter from wind and weather as well as protection from soiling by animals.

Temperature tolerance: to -10°C

Certification: CE

Swing- “FLYING BEE”

Fly like a bee – with the fun swing - Flying Bee. The high back and all round protection are particularly suitable for swinging small children and a safety belt can be attached.

Ropes and hanging rings are weather resistant.

Temperature tolerance: to -10°C

Certification: CE

Childrens Wheelbarrow – ROLLING BEE

The childrens wheelbarrow ROLLING BEE is an amusing and innovative play device.

A diligent working bee for our small gardeners and sand castle farmers.

Ergonomically formed sand, mush, water or also toys can be transported also, like a play friend who can sit comfortably in the hollow.

Qualities:

- robust plastic toy
- maximum loading capacity 60 kg
- ergonomically formed hollow
